

Dear {{Recipient.FirstName}},

As schools resume, it’s unsettling to see students’ hands in open cutlery bins. Fortunately, our touchless SmartStock® Tri-Tower Cutlery Station can help curb cross contamination with cutlery dispensed one at a time. So, students only touch what they need. And now, for a limited time, these dispensers are available at no charge. [Tri-Tower Video](#)

Why SmartStock® Tri-Tower for K-12 Cafeterias?

- **Touchless & Hygienic:** No buttons or levers to push can help improve hygiene and prevent cross contamination.
- **Helps Reduce Usage:** Efficient one-at-a-time dispensing technology can reduce cutlery usage up to 31%. \*
- **High-Capacity, Easy for Employee:** Dispensers hold up to 390 utensils so restocking is less frequent—and preloaded, dispenser-ready cutlery skewers help cut loading time.
- **Waste Saving & Sustainable:** Controlled dispensing helps reduce cutlery waste, which can mean less landfill trash. In addition, the SmartStock® Tri-Tower offers a compostable option for maximum sustainability benefits.

Contact me now to learn more about Tri-Tower and our limited-time no-charge dispenser offer.
